

2024 MAZDA CX-90

MILD-HYBRID INLINE 6 TURBO

PLUG-IN HYBRID

FACTORY-RECOMMENDED MAINTENANCE

WELCOME TO MAZDA CX-90 OWNERSHIP

Engineered from the ground up to stir your emotions each time you get behind the wheel, the first-ever Mazda CX-90 is our most ambitious vehicle ever. Exhilarating yet efficient, minimalistic but still fully equipped – Mazda's flagship three-row SUV is brilliantly balanced. Power and design are perfectly aligned without compromise. That's why it feels like it was made just for you. To maintain the CX-90's elevated performance, trust the service professionals at your Mazda retailer.

REFINED AND RAPTUROUS

Designed to elevate each and every moment behind the wheel, the CX-90's mild-hybrid inline 6 turbo engine delivers a smoother more responsive drive. Providing a service experience that is just as refined as your CX-90's performance, our factory-trained experts maintain the quality of your vehicle using only Mazda Genuine Parts and equipment.

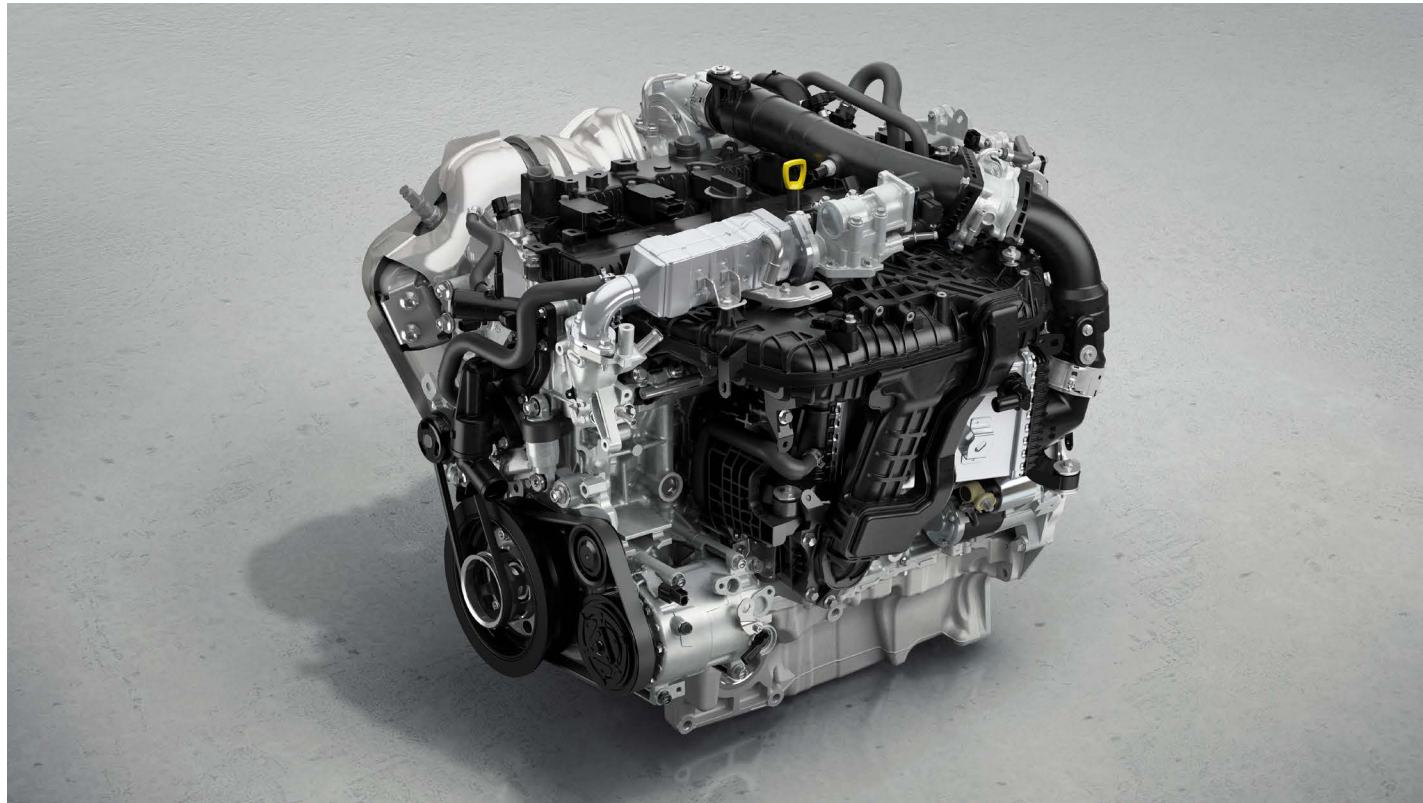

CAPABILITY

Your CX-90 boasts responsive driving dynamics in any condition. At every kilometre, your team of Mazda service professionals are committed to maintaining your performance.

EXHILARATION AND EFFICIENCY

When the CX-90's dynamic shifting rhythm meets the acceleration feedback synchronized with your own heartbeat, you'll find yourself fully immersed in the CX-90's powerful, responsive performance. Without compromising on Mazda's legendary driving dynamics, the CX-90 plug-in hybrid delivers incredible fuel economy. No matter which CX-90 you drive, the service experts at your Mazda retailer are well-versed in keeping your vehicle brilliantly balanced.

HUMAN CENTRICITY

No one understands the human-centric engineering of your CX-90 better than the service experts at your Mazda retailer. Maintenance is approached with a passion for Mazda and the promise to protect the joy in every drive.

WHY CHOOSE MAZDA GENUINE SERVICE?

When you visit your Mazda retailer for Mazda Genuine Service, you can rest assured that our factory-trained technicians know exactly what it takes to keep your CX-90 brilliantly balanced. Our state-of-the-art service facilities have the equipment, tools and Genuine Mazda Parts it takes to provide the most high-quality maintenance experience. Transparency is so important to us, and that's why our technicians will always complete a comprehensive vehicle inspection and provide you with a vehicle health check report following your service appointment.

CONDITION-BASED MAINTENANCE

Your CX-90 is equipped with features that are intuitive without interrupting the driver's focus. By automatically calculating the remaining oil life based on engine operating conditions, your CX-90 determines your condition-based maintenance schedule. When the wrench indicator light in the instrument cluster is illuminated, it is time for an oil change. We recommend contacting your preferred Mazda retailer as soon as possible to book a service visit.

Expect your wrench indicator to illuminate before reaching the maximum interval of 16,000 KM or 12 months after your previous maintenance.

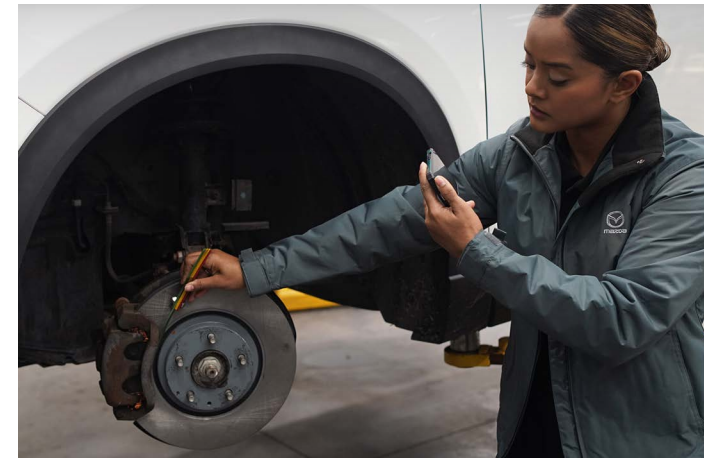

MAINTENANCE MONITOR STATUS

The technology in your CX-90 studies the human form to present a personalized driving experience that optimizes the comfort and security of you, the driver. With your Mazda's maintenance monitor status, there is no need for you to open the hood. You can check the oil life status and oil level right from your Mazda Connect display.

SEASONAL MAINTENANCE TO PROTECT YOUR PEACE OF MIND

Our factory-trained technicians know how to prepare your CX-90 for the unique demands of any season, whether it's time for an oil change or a battery inspection. Our service advisors are experts on your vehicle, and when you find yourself in need of new summer or winter tires, they can help you find the Mazda Approved Tires that will provide you with the best performance and safety to match your driving needs.

MAKE THE MOST OF MAZDA CONNECTED SERVICES WITH THE MYMAZDA APP

With Mazda Connected Services⁷ you can access your CX-90's health status report and more, all through the MyMazda App on your mobile device – complimentary for the first two years of ownership.

- 1 Reset the engine oil data after replacing the engine oil regardless of the message/wrench indicator light display. Genuine Mazda Engine Oil GF-6 OW20 is the newest ILSAC engine oil performance standard aimed at improving fuel economy and enhancing engine capabilities.
- 2 Inspect spare tire if equipped.
- 3 Unique Brake Fluid for Brake by Wire equipped for e-SKYACTIV models like CX-90 is required.
- 4 According to state/provincial and federal regulations, failure to perform maintenance on these items will not void your emissions warranties. However, Mazda recommends that all maintenance service be performed when the onboard vehicle status monitor indicates service is due to ensure long-term reliability.
- 5 Mazda Genuine Spark Plugs newly developed for the SKYACTIV-G (H3T), H3T is inline 6 gasoline engine with 48V mild hybrid boost battery – Use only Mazda Genuine Spark Plugs for H3T vehicles. Spark plug replacement should be only performed by a trained Mazda technician, not by a vehicle owner.
- 6 Use of FL-22 is required when replacing engine coolant. Using engine coolant other than FL-22 may cause serious damage to the engine and cooling system.
- 7 Connected vehicle service is available for a 2-year trial period from your vehicle's in-service date; a paid subscription is required upon expiry of the trial period. Requires MyMazda App (on a compatible smartphone), a working vehicle electrical system (including battery), wireless coverage and GPS satellite signal. Services, connectivity and capabilities vary by conditions as well as geographical and technical restrictions. See mazda.ca for details
